Getestetes Mobiltelefon nicht empfohlen in Verbindung mit dem Renault System: Die Qualität des Mobiltelefons wird nicht in Frage gestellt; die Bedingungen zur Verbindung des Mobiltelefons mit dem Renault Freisprechsystem erlauben es jedoch nicht eine optimale und sichere Bedienung des Systems sicherzustellen (keine automatische Warteschleife, Bluetooth-Verbindung nicht zuverlässig...)  
 The phone has been tested but is not recommended by Renault. This is not caused by any quality issue of the phone itself; however the pairing conditions between the phone and the Renault system don't allow a fully functional and secure operation (automatic hold-on function, tone generation for vocal servers, Bluetooth link reliability).

Getestetes Mobiltelefon nicht empfohlen in Verbindung mit dem Renault System: Die Qualität des Mobiltelefons wird nicht in Frage gestellt; die Bedingungen zur Verbindung des Mobiltelefons mit dem Renault Freisprechsystem erlauben es jedoch nicht eine optimale und sichere Bedienung des Systems sicherzustellen (keine automatische Warteschleife, Bluetooth-Verbindung nicht zuverlässig...)  
 The phone has been tested but is not recommended by Renault. This is not caused by any quality issue of the phone itself; however the pairing conditions between the phone and the Renault system don't allow a fully functional and secure operation (automatic hold-on function, tone generation for vocal servers, Bluetooth link reliability).

Getestetes Mobiltelefon nicht empfohlen in Verbindung mit dem Renault System: Die Qualität des Mobiltelefons wird nicht in Frage gestellt; die Bedingungen zur Verbindung des Mobiltelefons mit dem Renault Freisprechsystem erlauben es jedoch nicht eine optimale und sichere Bedienung des Systems sicherzustellen (keine automatische Warteschleife, Bluetooth-Verbindung nicht zuverlässig...)  
 The phone has been tested but is not recommended by Renault. This is not caused by any quality issue of the phone itself; however the pairing conditions between the phone and the Renault system don't allow a fully functional and secure operation (automatic hold-on function, tone generation for vocal servers, Bluetooth link reliability).

Getestetes Mobiltelefon nicht empfohlen in Verbindung mit dem Renault System: Die Qualität des Mobiltelefons wird nicht in Frage gestellt; die Bedingungen zur Verbindung des Mobiltelefons mit dem Renault Freisprechsystem erlauben es jedoch nicht eine optimale und sichere Bedienung des Systems sicherzustellen (keine automatische Warteschleife, Bluetooth-Verbindung nicht zuverlässig...)  
 The phone has been tested but is not recommended by Renault. This is not caused by any quality issue of the phone itself; however the pairing conditions between the phone and the Renault system don't allow a fully functional and secure operation (automatic hold-on function, tone generation for vocal servers, Bluetooth link reliability).
